## Geoscience for Crisis Management

The 9th AGSE Conference/Summer School will focus on '*Crisis and Disaster Management*', i.e., the contribution of Geoinformatics, Remote Sensing and Planning for preparation, response, recovery and mitigation of disasters. The contribution of Geospatial Science and Technology to the Sustainable Development Goals (SDGs) will also be covered.

**Date:** 12 - 16 November 2018

**Venue:** Auditoria, NUST Lower Campus

**For more information:** <http://ocs.applied-geoinformatics.org/>

**Submission deadline:** Friday, 31 August 2018
